## Present Simple Revision (Questions & Negations) (1

Practise negations and questions in the Present Simple

1 In the Present Simple we use the word "do" or "does" (for he, she, it) for negations and questions. For example: Do I like cats? I don't like cats. Does she live in Berlin? She doesn't live in Berlin.

1 If the question requires the verb "to be" use am, is or are at the beginning of the sentence. For example: Am I hungry? I'm not hungry. Is she nice? She isn't nice. Are they tall? They aren't tall.
